## About the 2016 OACFDC Provincial Conference

The 2016 OACFDC Provincial Conference is a unique opportunity for your organization to connect with up to 250 leading professionals whose work supports rural economic development across the province of Ontario.

Each Community Futures (CF) office delivers a variety of services ranging from strategic economic planning, technical and advisory services to businesses as well as loans to small and medium-sized businesses. The CF Network in Ontario is comprised of 60 locally and strategically positioned organizations who share a common vision to create diverse, sustainable communities by supporting local, community based economic development.

Delegates at our conference will include executive directors, project officers, government agency representatives, administrators as well as members of the 60 local volunteer boards of directors who are all familiar with their communities' needs, concerns and future development priorities.

Sponsors and exhibitors will receive acknowledgement prior to, during and after the event through conference materials and the website, and enjoy significant contact with delegates during the exhibition and social events. The trade show will be open for the duration of the conference.
